Checkout counter.

**Practical. Future-oriented.
Safe.**

Checkout Counter

**Store tobacco products safely and space-saving.
Use expensive shelf space to generate earnings.**

- ▶ Theft-proof storage of tobacco products in the lockable checkout area
- ▶ Staff has direct access to the goods whilst having eye contact with the customer
- ▶ Plenty of storage space due to the great depth of the checkout counter
- ▶ Modular design and various accessories for individual needs
- ▶ Future-oriented: in case of dark market restrictions for tobacco products, possibility of using the shelf space behind the counter for other, high-margin impulse goods

Technical details:

- Frame: powder-coated steel
RAL colour can be selected individually
- Wood paneling
Colour/decor individually selectable
- Modular design
- Various accessories in the cash register cabinet (doors, drawers, ...)
- Dimensions:
Cash register element W 100 cm
Confectionery element B 65 or 100 cm
