that provides safety

Tobacco shelf with roller shutter

Secure tobacco products insurance-compliant against theft.

- ▶ Practical, clearly arranged presentation of tobacco products during business hours
- ▶ Protection against burglary and theft, as the goods are not visible at night when the roller shutter is closed
- ▶ Roller shutter can be individually retrofitted to existing tobacco shelves
- ▶ Roller shutter accepted by insurance companies as theft protection, therefore recovery of insurance cover or reduction of insurance fee possible

Technical details:

- Material roller shutter armor and box: aluminium
- Electric drive, controllable via key switch (2 switches per unit)
- Rigid suspension as anti-lift device
- Various colours (on request)
- Tailor-made dimensions, split design for widths > 300cm
